Authenticity, idealism, creative potential and a great diversity of cultural forms mark especially former East-Berlin since the coming-down of the wall. They as well typify the program of *loop-raum für aktuelle kunst*. *loop-raum für aktuelle kunst* was set up in Berlin-Mitte in autumn 1997 and has so far presented several single and extraordinarily perceived big group exhibitions. Being a emerging gallery *loop-raum für aktuelle kunst* shows contemporary positions of painting, sculpture/installation and photography/video. A careful and encouraged support of the young, unknown artists represented by *loop-raum für aktuelle kunst* is an essential part of our curating. Our artists' works are presented in solo exhibitions and - together with other positions - in group exhibitions. So, *loop-raum für aktuelle kunst* keeps its open and experimental features and stays committed to the originality and authenticity of the young art of today.
